Kristina Lazzari serves as the Enterprise Community Liaison for HarmonyCares Medical Group (formerly Visiting Physicians Association) in the Houston area. HarmonyCares has been a trusted provider of in-home primary care for over 30 years, offering seniors value-based, preventative care plans that include services such as in-home radiology, labs, and sleep studies. In her role, Kristina works to build strong community partnerships and ensure patients receive the care they need in the comfort of their homes.

Kristina began her journey with HarmonyCares in 2020, shortly after graduating from Houston Baptist University with a Bachelor's degree in Business Management and a Minor in Marketing. She initially joined the company as a New Patient Coordinator, where she gained a deep understanding of patient needs and healthcare processes before transitioning into her current liaison role in November 2022.

Her early work experience across a range of customer-focused industries—including The Houstonian Country Club, Altar'd State, and Carolina Creek Christian Camp—helped her develop a strong foundation in hospitality, customer service, and teamwork. She also gained valuable professional insight through her marketing internship with HBU's Public Relations and Marketing department.

Kristina is passionate about making healthcare more accessible to seniors and brings energy, compassion, and professionalism to every interaction. Outside of work, she serves her community as a Team Captain on the Houston Livestock Show and Rodeo Souvenir Program Committee, helping raise scholarship funds for graduating FFA students.
