---

Kathy has spent over 30 years serving in the hospice industry and is deeply passionate about helping patients and families access the care they need **WHEN** they need it the most. In addition to **WHERE** they need it the most, which is most commonly in their own homes. She is committed to providing a concierge level of care and is available 24/7 to assist with admissions, answer questions, and guide families through the hospice decision-making process.

A trusted resource within the community, Kathy partners closely with physicians, hospital case managers, social workers, and senior living facilities to ensure seamless, patient-centered care. She is well known for uncovering families' true concerns and providing clear, thoughtful guidance during difficult times.

Beyond her professional achievements, Kathy is deeply committed to her community and church. She has volunteered her time and talents to numerous local outreach efforts, always seeking to make a meaningful difference in the lives of those around her. That commitment led her to create "Serving Houston Seniors", a grassroots initiative devoted to supporting and uplifting the senior community — connecting them to essential care, companionship, and local resources.

Outside of work, Kathy is a dedicated mother, wife, & community leader whose life and career reflect her passion for serving others. A proud mom of two wonderful daughters, Georgia and Britelyn, Kathy finds her greatest joy in raising confident, strong, compassionate, and well-rounded young women who share her love for people & service. Grounded in faith, family, and a heart for service, Kathy continues to inspire those she meets with her authenticity, her leadership, and her unwavering dedication to helping those around her.
