---

Brittany Salinas has been a dedicated team member at her company for three years, with the past year actively involved in Serving Houston Seniors. Her passion for senior care began early, inspired by a deep respect and compassion for the elderly. From the start of her career, Brittany knew she wanted to make a meaningful difference in the lives of seniors and their families.

She began her journey as a caregiver in a memory care facility, where she quickly connected with residents and found fulfillment in the hands-on care she provided. Her commitment and natural leadership led to a promotion to Medication Supervisor just six months later, where she gained a strong appreciation for the clinical and medical aspects of senior living.

After another six months, Brittany was promoted to Business Office Manager, a role she held for a year before transitioning into her current position as Marketing Director. In this role, she is passionate about educating families on the benefits of senior living and guiding them through important decisions with empathy, transparency, and professionalism.

Brittany is dedicated to continued growth in her career and strives for excellence in all aspects of sales, marketing, and community outreach.
